

THE PRIMARY ELECTION ON SATURDAY

Is Attracting Great Interest, and the Indications Point to a Very Heavy Vote.

THE COMMITTEE ISSUES RULES

For Guidance of Election Officers. Eleven Mentioned for House of Delegates.

There is great and increasing interest in the Republican primary of the coming Saturday, when the candidate for criminal court judge will be named, and delegates chosen to the county convention of the following Saturday, which will name the house of delegates ticket and select senatorial and judicial conferees. The importance of putting a first class house of delegates ticket in the field this year, when so much is involved in the result of the election, is realized on all sides, especially the continuance of two Republicans from this state in the United States senate. This feeling will doubtless influence a very large percentage of the Republican voters in sending delegates to the convention in whom they feel confidence in their ability to choose a good house of delegates ticket. The list of gentlemen mentioned for places on the house of delegates ticket numbers eleven men, as follows: George A. Laughlin, business man. C. E. Van Keuren, business man. Peter Bachman, business man. Richard Westwood, potter. Jesse Jackson, potter. William L. Tausch, potter. Abram McColloch, farmer. Ralph McCoy, artisan. D. W. Martin, stationary engineer. S. G. Smith, lawyer. Hugh Sterling, business man.

Primary Election Rules.

County Chairman W. H. Hornish, at the instance of the Republican county committee, yesterday drew up the following rules for the use of the judges and clerks of the primary, which will be printed and distributed among the officials on Friday. The judges and clerks will fill out and qualify the affidavits in the poll books before opening the polls. The polls will open at 11 o'clock a. m. and close at 7 o'clock p. m. in all of the districts except Liberty and Richland, where they will open at 1 o'clock and close at 7 o'clock p. m. The judges will preserve order in the election room, and no person shall be allowed therein, except the election officers and persons who are engaged in voting; but a Republican desiring to challenge a person's right to vote may enter and state his objections; he must then retire. No ballot will be received or counted except the official ballot, which shall be signed on the back by both clerks before it is issued. A person desiring to vote will announce his name, the judge will then hand him a ballot, which he must prepare without retreating from the room. He will then hand the ballot to the judge and announce his name and address, which the clerks will enter on the poll books. In case a voter shall be unable to prepare his ballot the clerks will assist him. Not more than one ballot shall be handed to any voter unless he has mutilated or destroyed the first one, and he shall return the first ballot before receiving another. No ballot shall be allowed to be taken from the election room. When the polls are closed the results shall be ascertained and entered on the tally sheets and certified to by all of the election officers. The poll books, tally sheets and election supplies will be replaced in the ballot box, which shall be securely locked and returned to the chairman of the county committee without unnecessary delay.

Arbenz were elected to compose the board of directors.

The directory met after they were elected and selected the following officers: President, Howard Hazlett; vice president, John S. Welty; secretary-treasurer, John Arbenz, Jr. It is the intention of the company to secure the right of way through Brooke county as soon as possible. The road will be constructed without delay.

An Automobile Accident.

Following the example of Pittsburgh, Wheeling comes to the front with an automobile accident. Mr. Lankard and a companion were coming down Market street in George E. House's "auto" last night, at 9 o'clock, when, opposite the Brunswick hotel, it ran into and knocked down Mrs. Bentley, wife of Rev. Bentley, the colored Methodist minister. She was taken to a nearby drug store, where she soon recovered, and was found to have suffered only slight injuries. The lady with Mr. Lankard was thrown from the automobile, but was only slightly injured. The machine escaped injury. A crowd of several hundred persons was attracted by the accident.

We're a Big Place.

Two bicyclists en route from Indiana to Virginia, lost themselves in this big town of Wheeling late last night, and were found at midnight by Officer McCullough in Manchester, near the Reymann brewery, and the officer took them to police headquarters. They resume their journey this morning, going on their wheels to Cumberland, Md., and thence to their old home in Virginia. Their names are Albert Winckler and Charles Long.

THIRTY-FIVE GLASSWORKERS FOR THE COAST

Leave Wheeling Tuesday Night, and Twenty-five Others Will Follow Shortly.

WILL TRAVEL IN PULLMANS

From St. Louis—\$4,000 in Railroad Fares Paid Out by Manager George Roberts.

The largest party ever booked from Wheeling for the Pacific coast left last night at 9:30 o'clock, via the Pan Handle and "Frisco" lines for San Francisco. The party is made up of thirty-five of the sixty glassworkers whom Manager George Roberts, of the San Francisco & Pacific Glass Company, is securing in this section of the country. The twenty-five others will go west within the ensuing two weeks, but not in a party. Manager Roberts, who is an old Wheeling boy who has "made his way" in the west, pays out something like \$4,000 in railroad fares for these men. As stated recently in the Intelligencer, his company has enlarged its plant, but as there were no glassworkers in California other than those employed in his plant, he had to come back east for the additional men needed.

The glassworkers began assembling at the Pan Handle passenger station long before the hour of the train's departure. They were given their tickets by Passenger Agent Tomlinson, of the Pan Handle, assisted by Traveling Passenger Agent Fred B. Sankey, of the Pan Handle, and Traveling Passenger Agent Sidney Van Duzen, of the St. Louis & San Francisco ("Frisco"), the two hustling young railroaders who secured this "nice piece of business" for their lines recently in competition with all the trans-continental lines of the country.

Most of the party come from the neighboring glass towns, but a bunch of fifteen are from Philadelphia, who came on in charge of William Launer, of that city. The party will be joined at Fostoria, Ohio, by C. B. Roberts, a brother of George Roberts. The latter and Traveling Passenger Agent Van Duzen personally conduct the party to St. Louis, which will be reached at noon to-day. In the party are the following, not including the Philadelphia bunch, whose names could not be secured:

Wellsburg—Ed. Roberts, Lester Burge Frank Springberg, Ed. Burghoff, Sam Burghoff, Doc Gasmler, J. Johnson, J. Patterson.

Martin's Ferry—W. B. Kenny, E. F. Fitzsimmons, George Brannon.

Moundsville—R. M. Boston, William Pracht, William Stewart.

Muncie, Ind.—Max Short.

Fairmount, Ind.—W. H. Edmunds.

Bridgeport—Art Nehlinger.

From St. Louis westward the party will occupy two Pullman tourist sleepers, and will be well cared for the entire trip by representatives of the several railroads on the route, which is as follows: Wheeling to St. Louis, via the Pan Handle; "Frisco" line, from St. Louis to Burton, Kas.; Santa Fe, Burton to Pueblo, Col.; Denver & Rio Grande, Pueblo to Grand Junction, Col.; Rio Grande & Western, Grand Junction to Ogden, Utah; Southern Pacific, Ogden to San Francisco.

The San Francisco & Pacific Glass Company, for which the men are to work, has built up a big business in the making of bottles for California wines and mineral waters.

Passenger Agent John G. Tomlinson, of the Pan Handle; Traveling Passenger Agent Fred B. Sankey, of the same line, and Traveling Passenger Agent Van Duzen, of the "Frisco," have been generally complimented in railroad circles for their work in corraling this piece of business for their lines, one of the biggest ever secured out of Wheeling.

"EXCURSION SUNDAY"

Is the Coming Sabbath, When Several Excursions Will Take Out 2,000 or More Wheeling People to Detroit and Chicago.

The coming Sabbath, August 26, will be "Excursion Sunday" in Wheeling, there being no less than four excursions on as many of the local railroads, three to Detroit for the Uniform Rank, Knights of Pythias encampment, and one via the Pennsylvania for Chicago and the G. A. R. encampment. It is estimated that these excursions will take out fully 2,000 people, possibly more.

The Pennsylvania's G. A. R. special, under the auspices of the local Ladies of the G. A. R., will leave the Terminal station at 7:30 a. m., and Martin's Ferry at 11 a. m. This special goes through to Cleveland, where the evening will be spent and thence to Detroit via the Detroit & Cleveland line boats. Seventy-five state-rooms have been reserved for this excursion, some of which can be reserved at the Belleaire ticket office, and others at the Wheeling city ticket office, in the McClure block, where Traveling Passenger Agent O. R. Wood is in charge.

The Wheeling & Lake Erie Detroit special, under the auspices of the Wheeling Uniform Rank companies and subordinate lodges, leaves the Terminal station at 6 a. m., and goes via Cleveland and the Detroit & Cleveland boats. This will be a very large excursion, fully 800 or 1,000 excursionists being expected.

The fourth of the Sunday excursions out of Wheeling next Sunday is the Baltimore & Ohio's special to Detroit, under the auspices of the Moundsville Knights of Pythias, leaving Moundsville in the morning and reaching Detroit in the evening. This is the only all-rail excursion to Detroit.

CHEW "O. V." Scrap Tobacco.

THEIR LABORS ENDED.

The City Board of Equalization and Appeals Holds its Final Session Tuesday—A Falling Off in Personality North of the Creek.

The city board of equalization and appeals held its final session yesterday afternoon, and its report will come before council next Tuesday evening. Although the business before the board, during its many sessions of the past two weeks, has not been made public, it is learned that the net result is a falling off in personality north of the creek.

The business men who were summoned before the board Monday and Tuesday, in most instances swore to the correctness of the returns they had already made, and no increases could be had. Some, however, swore to higher figures, but the increase is not sufficient to make up the decrease mentioned.

A member of the board, speaking of the work of the board, said to an Intelligencer reporter yesterday afternoon, that the city is all wrong in the manner the assessment is made. Instead of having two men work a few weeks on the assessment each year, there should be one city assessor, a regular official who would give the work his attention throughout the year, just as the two county assessors do. Then there would be a more reliable assessment, and doubtless an increase.

Good News for Glassblowers.

Pittsburgh River News.

PITTSBURGH, Aug. 21.—The rains during the night, especially up the Allegheny and Monongahela rivers, formed the principal topic of discussion during the day along the local wharves, and although not very much was expected among the experienced weather prophets, the hope was expressed that there will be more rainfall later and a considerable rise in consequence.

The daily bulletin of the weather bureau announced that the Allegheny, Monongahela and upper Ohio rivers will rise. At Davis' Island dam the marks during the afternoon showed 2.8 feet, the river slowly rising. It was reported there that about another foot of rise was expected.

The rain was heaviest up the Allegheny river. At Johnstown a rainfall of 2.30 inches was recorded, and the reports from neighboring places were as follows: Warren, 1.60 inch; Oil City, 1.6; Brookville, .97; Freeport, .31. Other places reporting a considerable fall were: Fairmont, .57 inch; Rowlesburg, .53, and Greensboro, .32. There are good chances of the rise in the local rivers holding, for the reason that there was a rainfall of 1.65 inches at Beaver Dam and 1.50 inches at Mahoning, one of the tributaries, the higher water at these places helping to back up that above.

Capt. John F. Dravo, of the Coal Exchange, said during the day that not much was expected from the rains which have taken place thus far, and other rivermen expressed themselves in a similar vein, although they said that with some more of the rains which may be expected now, good results will follow.
